## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 43-95, are drawn to a method, classified in class 435, subclass 325.
  - II. Claims 1-42, drawn to an apparatus, classified in class 435, subclass 289.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group I and II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used for bioremediation of hazardous wastes.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to 2/26/02 on 2/26/02 to request an oral election to the above restriction requirement, but did not result in an election being made.
